GEM2600-01

Top and bottom feed, bed interlock sewing machine

Cylinder bed sewing machine not only has all characteristics or 600B series, but also lessens the circle of the small square-type head to 177mm, which makes very tubular goods such as child clothes sewed more smoothly, the additional independent drive and feed structure, with differential feed mechanism feeding up and down, keeps a high differential ratio, which makes the efficiency of feeding higher, solves plug up and skipping seam in reseeded places, sews very beautiful zigzag seam for lap and avoids folded cloth from being twisted
