

-- **FG-799**

---

Name: HIGH SPEED STRAIGHT 2-NEEDLE, 3-NEEDLE SEWING MACHINE WITH MES AND LEVEL SCALE FOR MORE WONDERFUL ELASTIC AND LACE SEWING

Type: FG-799

---

**Description:**

EQUIPED WITH MICRO ADJUSTING AND LEVEL SCALE READOUT TO ENSURE THE FEEDING, WHICH UPGRADE THE QUALITY.

Mechanism type level scale is included, level adjusting screw move up and down precisely to feed the elastic in a uniform stitch length.

In addition, micro adjusting device has made micro adjustment possible and thus higher quality can be attained.

STICHING ELASTIC ON WHILE CUTTING EDGES.

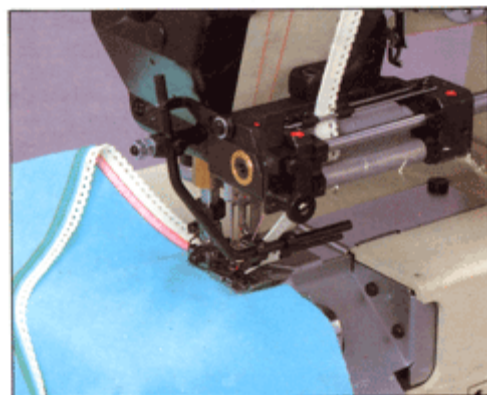

While trimming mechanism working on fabric edge, elastic or lace are being stitched on.

Since the edges are caught in, you may obtain a beautiful finishing.

Stitch length change is done by a push button.

To change the differential rate, just move differential lever up and down.

By using a level scale, high quality products can be made.

## APPLICATIONS

shorts, garter, and various elastic for fabric.  
panty-stocking, waist elastic of tights slip and  
other foundation-related garments with lace.

## SEAM

2-needle, 3-needle, with or without decoration  
can be done equally.

Design and specifications in this catalog are  
subject to change without notice.
