

-- **VG-888-CF**

Name: 3 in 1 Multi-Function High Speed Cylinder-Bed 3-Needle 5-Thread Interlock Machine
Type: VG-888-CF

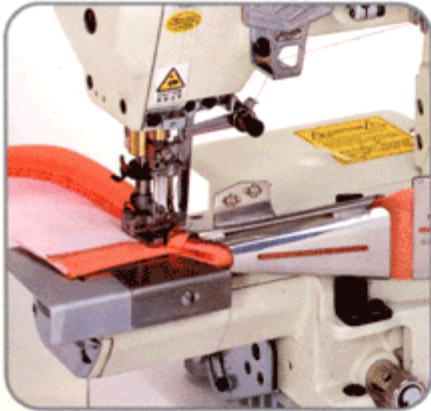

Description:

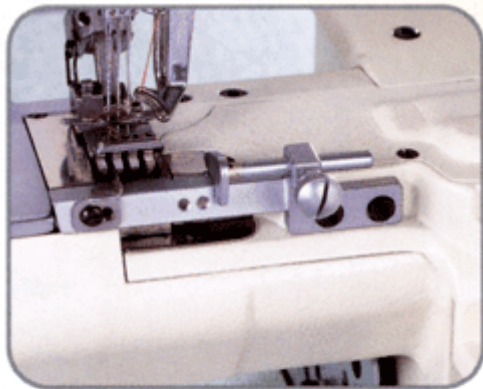

Innovative ! Versatility !
3 in 1 Multi-Function
High Speed Cylinder-Bed 3 Needle 5 Thread Interlock Machine

The model is our newly -developed type so called 3 in 1 - Stitch Covering, Hemming and Tape Binding combined in one machine to achieve labor cost combined in one machine to achieve labor cost saving, high quality sewing work and high productivity. (Patent No. 177529)

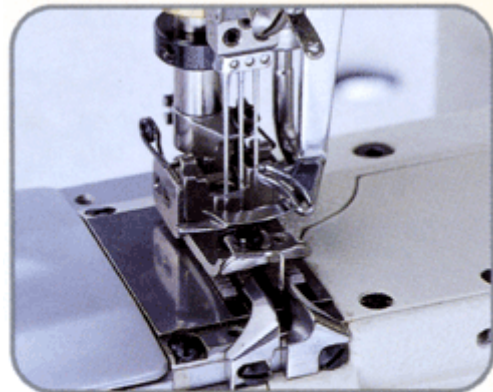

1. The model can equip with wide range of Tape Binders from 1/4" ~ 1 1/2" to meet varied size of tape binding sewing request. Easy Tape Binders installation and good finish interlock sewing operation . Changing Front Cover is no need.
2. Economic concept to design the compatibility with sewing parts, creates maximum benefits for the end-users.
3. Thanks to 3 in 1 design- Stitch Covering, Hemming and Tape Binding combined in one machine, economic, easy operation to reach high productivity with good finish sewing work.

Improve the traditional binding device that can not approach body of the machine, our new design can adjust any directions at will to meet any binding sewing purpose. Finished size from 1/4"-1 1/2"

Improved hemming folder, easy adjustment, rapid and stable sewing works are obtained.

Adjusting fabric guide, and adjustable presser foot.
