

## High Speed Lockstitch Sewing Machine

**TK-89**

**TK-89H (for heavy material)**

This high-speed, single-needle, two-thread lockstitch sewing machine is equipped with a tread take up lever, a stitch-length regulator and a lever-type reverse feed function. The upper and lower shafts of the machine are driven by spiral gears with automatic lubricating old feeding and returning devices to ensure the high speed running of the machine, ideal for sewing cotton, knit and synthetic fabrics of a range from light to heavy weight.
