

GC201-D2

GC202-D2

#### APPLICATIONS:

- For sewing medium & heavy materials, such as fabric, polythene, synthetics, leather, etc.
- Suitable for sewing such products as clothes, suitcase, leather products, toy, gloves, shoes, cap, etc.

#### FEATURES:

- Link feed mechanism assures smooth feeding, good sewing capacity ability
- Link thread take-up, auto-lubricating rotary hook thread releasing
- Lock stitch length regulator assures fixed stitch length during operation
- High presser foot lifter assures easy input and output of materials
- Adjustable stitch length of forward and backward stitching
- Auto-set needle number, auto-set needle position, auto-trimming, and other modes

#### SPECIFICATIONS:

Model	Max. Sewing speed (s.p.m)	Max. Stitch length (mm)	Clearance under presser foot (mm)	Needle bar stroke (mm)	Needle (standard)
GC201-D2	3000	7	6.5(by hand) 13(by knee)	35	DP×5 18 <sup>#</sup> ~23 <sup>#</sup>
GC202-D2	2500	8	8(by hand) 16(by knee)	37	DP×5 18 <sup>#</sup> ~24 <sup>#</sup>

Model	Lubrication system	Bed size (mm)	Working space (mm)
GC201-D2	Auto lubrication (Impeller pump)	475×178	260×120
GC202-D2	Auto lubrication (Gear pump)
