

APPLICATIONS:

- For sewing medium & heavy materials, such as fabric, leather, polythene, synthetics, etc.
- Suitable for sewing such products as suitcase, sofa, tents, cushion, leather products, etc.

FEATURES:

- Compound feed avoid slippage between the different material layers
- Auto-lubrication system (GC6-7-D)
- Link take-up thread, large hook thread release
- High lifting of presser foot assures easy input and output of materials

SPECIFICATIONS:

Model	Max. Sewing speed (s.p.m)	Max. Stitch length (mm)	Clearance under presser foot (mm)	Needle bar stroke (mm)	Needle (standard)
GC6-7	2000	8	6.5 (by hand)	37	DP×17*20 →24
GC6-7-D	2500		13 (by knee)		
Model	Amount of alternating presser foot lifter (mm)	Lubrication system	Bed size (mm)	Working space (mm)	
GC6-7	2~5	Oiled by hand	475×178	260×120	
GC6-7-D	(standard 3.2)	Auto lubrication
